

SICHOS FOR KIDS

Frequently Asked Questions

Q: What is Sichos For Kids?

A: A Dvar Torah Curriculum on the weekly Parsha.

Q: What grade levels is it for?

A: This book is geared for boys and girls in 4th-5th grade but can work for higher grades as well.

Q: Will more books be available?

A: Bez’H I hope to be able to create multiple books, each one tailored to a different age group.

Q: What pushed you to make this new curriculum?

A: I found that often the same Sichos are used by many teachers, resulting in students receiving the same Dvar Torah year after year, or the same as their siblings with little regard for grade-level distinctions. I set out to develop a curriculum for my class that draws from all of the Rebbe’s Torah while presenting it in a way that is age-appropriate and relevant at every grade level.

Q: What does each Dvar Torah include?

A: Parsha Summary, background, question, answer, takeaway, story, and 2 review questions. The first of the 2 pages is fill-in-the-blank.

Q: Are there teacher materials?

A: Yes, a teacher book is available without the fill-in-the-blanks as well as a slide presentation with the text to go along with it.

Q: Is the PDF available?

A: The curriculum comes as spiral bound workbooks shipped to your school and is remade each year to match with the calendar of the year and your school calendar.

Q: How much does it cost?

A: \$10 per workbook + shipping.

Q: Can I have a sample?

A: Yes.

Q: How do we get started?

A: Fill out the order form or reach out to order.
